Hi there,

I noticed your publication: [Quantum Computing and the Implications for the Securities Industry | FINRA.org](#) regarding quantum computing and its implications for securities. I am working in the field at Canada's central bank, and thought you may find our publications on the topic relevant: [Quantum Monte Carlo for Economics: Stress Testing and Macroeconomic Deep Learning - Bank of Canada \[bankofcanada.ca\]](#), and [Improving the Efficiency of Payments Systems Using Quantum Computing - Bank of Canada \[bankofcanada.ca\]](#)

In addition, this seminar series from Duke and UNC has a number of talks which could be of use to your research as it covers topics related to both finance and quantum: [Rethinc \(unc.edu\)](#) [\[kenaninstitute.unc.edu\]](#). Perhaps you have already come across these resources and if so no worries!

Best regards, Danica

Danica Marsden, PhD

Principal Quantum Computing & Data Scientist
Data Science Innovation, Bank of Canada
